Company Y Data Department Report

Prepared by: *[Tawfiq Ayman Fayyad]* ***Department:*** *Data Department* ***Date:*** *April 2025* ***Version:*** *1.0*

Executive Summary

This report presents a comprehensive analysis of sales performance across financial, geographic, and product dimensions.

Key Findings:

- Total Sales: **2,297,201**
- Net Sales: **2,116,697**
- Total Orders: **5009**
- Total Customers: **793**
- Technology is the leading category (**836,154**)
- West region is the top-performing region (**725,458**)
- New York City is the top-performing city (**256,368**).

Critical Insight:

Despite strong revenue, high **COGS (1.55M)** and **Discounts (297K)** significantly reduce profitability.

Strategic Priority:

Improve profitability by controlling costs while scaling high-performing regions and categories.

Scope

- Financial Performance
- Category Analysis
- Regional & Geographic Analysis
- Product Analysis
- Trend Analysis

Data Specs:

Here are the tables we used to conduct our analysis.

- Orders Table
- Return Table
- Shipping Cost Table
- People Table

The Analysis

The following sections present the analysis results across Six dimensions, supported by pivot table data extracted from the orders dataset.

1. Financial Performance

Row Lab	Sum of Sales	Sum of Discount V	Sum of COGS
Yes	180,504	- 24,896	- 132,376
(blank)	2,116,697	- 297,687	- 1,555,845
Grand Total	**2,297,201**	**- 322,582**	**- 1,688,222**
Returns	180,504		
Net	2,116,697	- 297,687	- 1,555,845

The business generated strong total sales exceeding **2.29M**, resulting in net sales of **2.11M**.

<u>However:</u>

- Discounts: **297,687**
- Returns: **180,504**
- COGS: **1,555,845**

This means:

- A large portion of revenue is consumed by costs.
- Profitability is not as strong as sales.

Insight:

Business is **revenue-strong but margin-sensitive**

Recommendations:

1. Optimize discount strategy to avoid unnecessary revenue loss
2. Investigate high return value and reduce product/service issues
3. Improve cost efficiency in supply chain and sourcing

2. Category Analysis

Row Labels	Sum of Sales
Furniture	742,000
Office Supplies	719,047
Technology	836,154
Grand Total	**2,297,201**

- Technology: **836,154** (Top)
- Furniture: **742,000**
- Office Supplies: **719,047**

Insight:

- Technology clearly dominates sales
- The Difference between the categories is not large → in relative balance

Recommendations:

1. Scale Technology as the primary growth driver
2. Increase marketing for mid-performing categories
3. Analyze profitability per category (Not just sales)

3. Regional Analysis

Region & Person	Sum of Sales
⊞ Central	501,240
⊞ East	678,781
⊞ South	391,722
⊞ West	725,458
Grand Total	**2,297,201**

- West: **725,458** (Highest)
- East: **678,781**
- Central: **501,240**
- South: **391,722** (Weakest)

Insight:

- There is a clear imbalance between the regions.
- The south is significantly lagging behind.

Recommendations:

1. Maintain dominance in West region
2. Replicate successful strategies in East
3. Improve South via targeted campaigns

4. Geographic Analysis

Top 10 Cities	Sum of Sales
Springfield	43,054
Jacksonville	44,713
San Diego	47,521
Chicago	48,540
Houston	64,505
Philadelphia	109,077
San Francisco	112,669
Seattle	119,541
Los Angeles	175,851
New York City	256,368
Grand Total	**1,021,839**

Top States:

- California: **457,688**
- New York: **310,876**
- Texas: **170,188**

Top Cities:

- New York City: **256,368**
- Los Angeles: **175,851**
- Seattle: **119,541**

Insight:

- Performance is concentrated in major cities.
- There is a large gap between the top and bottom cities.

Recommendations:

1. Focus investments in top-performing cities
2. Expand strategies to mid-tier cities
3. Reduce dependency on few locations

5. Sub-Category Analysis

Top 5 Sub-Category	Sum of Sales
Binders	203,413
Tables	206,966
Storage	223,844
Chairs	328,449
Phones	330,007
Grand Total	**1,292,678**

The Top subcategories approximately:

- Binders (~330K)
- Chairs (~328K)
- Phones (~223K)

Insight:

- **Revenues are distributed across several products.**
- **There is no complete reliance on a single product.**

Recommendations:

1. **Promote high-performing sub-categories**
2. **Products related to the package to increase the products**
3. **Improving underperforming products**

6. Trend Analysis

Row Labels	Sum of Sales	Sum of Quantity
⊞2014	484,247	7,581
⊞2015	470,533	7,979
⊞2016	609,206	9,837
⊞2017	733,215	12,476
Grand Total	2,297,201	37,873

- Clear growth from 2014 to 2017
- The biggest jump in 2017

Insight:

Business is in a **growth phase**

Recommendations:

1. Support growth with inventory planning
2. Prepare for higher future demand
3. Use forecasting models

Conclusion

The business demonstrates strong sales growth and solid market presence, especially in Technology and the West region.

However, profitability is impacted by:

- High COGS
- Discounts
- Returns

Final Strategic Actions:

1. Improve profit margins (priority)
2. Scale top-performing areas
3. Fix weak regions
4. Optimize cost structure
